The New York Times reported that the DNC has scheduled a conference call for Tuesday with representatives of state parties to discuss how to conduct their endorsements. From the New York Times: The goal of the call is to forge a unity message for the Democratic Party ahead of the state party meetings that will convene shortly after the call. The party's national committee hopes to bring the state party conventions to a close by May, the deadline for candidates to qualify for the next debate, and any remaining state party meetings will be canceled. "That's a whole lot of calls," said Vicky Hartzler, the Missouri state party chairwoman, who will be on the call, along with the other state party chairs. "We'll have a lot of work to do over the next few days." The DNC has been planning this for quite some time. The Times also reported that this is only a partial list of endorsements, and that some states and localities are waiting to make their endorsements official until after the next round of DNC-approved debates: In addition to the New York delegation, the conference call participants include delegates from Maryland, Minnesota, Missouri and West Virginia. However, no official endorsement is expected to be announced until the next debate, on May 19 in Ohio. In New Hampshire, where the next debate will be held, the state party had not made any official endorsement by the time the call was scheduled, but Ms. Camacho said that was because no endorsement had yet been issued. The conference call was 5b5f913d15
