Chat Watch Network Edition is a program that logs AOL Instant Messenger (AIM) instant messages sent through your computer and your network. Chat Watch Network Edition (NE) is a powerful application that logs AOL Instant Messenger (AIM) instant messages on a network. By installing Chat Watch NE on a computer on your LAN you will be able to capture AOL Instant Messenger instant messages from all the other computers, including the one running Chat Watch NE. By watching for AIM instant messages, Chat Watch Network Edition logs every instant messenger that uses the AIM protocol - AOL Instant Messenger, AIM Triton, Trillian, and others. Chat Watch Network Edition can store the instant message logs to the local computer or to a Microsoft SQL Server database, and to ensure the security of the logged instant message Chat Watch NE can optionally encrypt all stored instant messages. Here are some key features of "Chat Watch Network Edition": ⦁ Small, easy to install and use. ⦁ Runs as a Windows service. ⦁ Chat Watch Network Edition does not have to be installed on each computer to be monitored. ⦁ Use can be restricted to only administrator users. ⦁ Supports Microsoft SQL Server. ⦁ Can optionally encrypt all stored instant messages. ⦁ Can export the instant message logs as HTML page Chat Watch Network Edition, from Logical Options, is the newest and best edition of the popular Chat Watch instant messenger tool for monitoring AIM, ICQ, MSN, MSN Live, Yahoo, and GTalk. It will log instant messages for all supported instant messenger clients, including the latest version of AOL Instant Messenger, AIM Triton, Trillian, ICQ, and many more. You can also configure Chat Watch Network Edition to capture IMs sent to computers on your LAN. With Chat Watch Network Edition you can watch an Instant Messenger account (eg. AIM, MSN, Yahoo, ICQ, GTalk, etc.) in real time from any computer on your LAN, and capture every IM sent and received by a Windows computer on your LAN. Chat Watch Network Edition logs all instant messenger IMs sent to your computer, and stores them to a local SQL Server database. You can view the stored instant messages later using Chat Watch interface. Chat Watch uses the same instant messenger client used to log instant messages, and there is no need to install a specific instant messenger program to log instant messages. You can use Chat Watch Network Edition to monitor
