It is designed to help people use the tools they already know—with a new interface. Adobe Photoshop Elements 8 offers 50 gigabytes of space for a more affordable price than the full version of Photoshop. Fireworks doesn't provide as many ready-made shapes and other features as some of the other programs, but it does provide a fast, yet easy-to-learn, path-based interface. Fireworks has been around for a very long time and has become quite popular. It remains a very powerful tool. Fireworks also has some limitations. To see these limitations, download the latest release of Fireworks for free from its website (www.adobe.com/cfusion/mmform/customer/fireworks/fireworks.shtml). * **Corel Paint Shop Pro X5**. Corel Paint Shop Pro is a widely used graphics program that runs on a range of operating systems—from Windows to Mac OS X to Linux. It offers many of the same features as other leading graphics programs. You can use the program to create, edit, and modify images. It also features a

At least seven people have been killed and 14 more wounded in a mass shooting at a Sikh temple in suburban Milwaukee on Sunday morning. A gunman opened fire inside a nondenominational temple on the city's south side, the Associated Press reported. Footage from local news channels showed the gunman standing inside the temple's ballroom and firing shots into a crowd of congregants as they were in the midst of a morning prayer service. "He walked inside and opened fire," said John Iosifidis, vice president of a Christian church next to the temple, who said he was inside. "There was a big bad boom and then people started running." Iosifidis added that he thought the shooter fired only one round, and that the noise sent him to the basement to seek cover. Iosifidis said police arrived at the temple in about five minutes, and members were "scared to death." He said the gunman, whom he saw wearing a red shirt and no mask, also went into the basement where he reloaded his gun. Police spent about 30 minutes at the temple, and said they didn't have any suspects yet. An officer said there were no hostages. "It looks like they [the police] tried to end that situation, they tried everything they could to stop the attack before it happened," the officer said. "We have no idea why it happened. We're just glad that
