Clark, 9 Days by Arielle Greenberg, and War on my Cherries by Curtis J. Chitwood. I was intrigued by the description on the back covers. I had to look them up. “The Lab” We were given the opportunity to be a guinea pig in a pre-graduate research project where students follow the development of an embryo until birth. After 8 days of observation, we were introduced to three of our own embryos that were actually born. We were very emotional watching our pregnancies develop and we believe that we had a very important part in their survival. “9 Days” Arielle can not see the day that she is pregnant.
