The Champions Arena has been taken over by a new generation. A generation that strives to become the best, and stop the "Elder" generation from kicking the final stone in their own tomb. The new champions seek to destroy the old guards. Today, we introduce you to the Sorcerers. Old rivals from the past, who once battled across the land for sport. They were the best, the strongest, and the bravest. Today, they are coming back to their old tricks, and we will see how far the rookies in the arena will go to get the title of the victor. Dive into the Champions Arena, and defeat your old enemies to become a new champion of the Sorcerers. Key Features: - Experience the essence of the Champions Arena! - Obtain spells and techniques from over 200 masters of the magic arts. - Players are no longer restricted to using only a single character. - Player vs. Player battles are now implemented into the game!
