ARTIFICIAL INTELLIGENCE (AI) Introducing "FIFA Intelligence," which harnesses artificial intelligence to guide all players in real-time. This enables AI to learn from play and collect data to use when producing future iterations of FIFA content. This week we introduced FIFA 22's AI technology, "FIFA Intelligence." FIFA Intelligence: Dictates how and when to use tactics Shows players the best tactics for any situation and any opponent Redirects the flow of play when the opposition player shows abnormal behavior Novelty AI "Like a little prodigy, the new-generation AI can cope quickly with any new situations that arise in a live match." FIFA 22's artificial intelligence includes a new generation of "novelty AI" designed to read play and adjust to any situation, inspired by how intelligent animal species can adapt. This week our new digital mascot, Hatchi, was introduced to the FIFA community, and we demonstrated what it can do in the demo. See the latest Hatchi video here: HATCHI (PLAYER CREATION) Take your custom players, create them with your preferred avatar's face, then take them on a match-day journey. The potential is incredible

Features Key:

- A new Editor Mode allows fans to edit beautiful player and stadium graphics by hand.
- New features such as Quick Shots and Skill Shots, Foul Apartments, and a new Target-defending penalty Kick replace the Corner Kick concept.
- The development of the game has enabled us to provide more detailed commentary in support of your journey through the various stages of FIFA: Road to FIFA22, Career Mode, and Ultimate Team.
- Authentic Dribbling Control lets you dribble like a real player.
- Create your dream team from over 700 players, including Cristiano Ronaldo, Ibrahimovic, Neymar, and the new FIFA Hybrid players.
- Refine and perfect each player's craft in Career Mode, level up an armada of Training Sessions, and challenge yourself in the all-new FUT Draft Leagues.
- FIFA Ultimate Team.
- Story Mode Introduces more Risk and Reward gameplay—can you compose a side full of high-risk players or one designed for successful second balls?
- NBA 2K introduced an array of new Playmaker Drives and Precision Finals this year. Now players can have more opportunities than ever to display their skills and create history through Dynamic Skill Plays. Aiming for different results with wild dribbles and timely passes in full NBA Flow, players can turn points on a dime to earn a Defendable Close for Game-Winning Backs to spin the momentum in their favor.
- Face the new 6.5-meter high and wide shot trajectory arc. Get an edge on your opponent with new Defended Shots and Specialist Dribbles. Generate better shots with a revamped shot meter and more detailed, physics-based animations to place shots just the way you want.
- Major Improvements to AI continue to deliver more authentic game play by: contextual movement, better collision detection, smarter goalkeepers, more realistic player movements and reactions, and an improved attention system.

UEFA Champions League – The biggest club competition in the world comes to life in FIFA Ultimate Team. Spend coins on real and virtual players to earn packs that will allow you to build the ultimate team. Then compete with friends on leaderboards and against players from around the world and prove that you are the ultimate creator. Quick Kick – Test your quick-thinking skills with this new Quick Kick mode. Ranging from 5, 10 and 20-minute challenges, it's the quickest yet – but also the most dangerous. How well you perform against the clock will determine whether you become FIFA's No. 1 Quick Kick master! Pitch Constructor – FIFA Pitch Constructor is the all-new way to create your own custom-made stadiums and pitches. Now you can design your very own Premier League or La Liga stadium, or enjoy the endless possibilities of UEFA Champions League or UEFA Europa League stadiums. Player Goals – Players can now aspire to reach peak condition on the pitch. There is now a Player Goals system that tracks personal goals, moments, and impressive shots during matches. There are three player goals that can be reached for, and the more important the player goal, the faster it is achieved. MODELING FEATURES A more detailed and realistic game engine makes every Premier League look more realistic. More than 50 stadium models were rebuilt and extensively upgraded, featuring not only the real-life stadia, but also the dugouts. The 'Crew' system, with 7 different roles to assign to every player in a team, allows managers to better understand tactics and predict behavior. REDESIGNED UPDATES The debut of the new Dribbling system will give players and fans even more control on the pitch. Players will feel more involved in the game with new player controls that give them individual control of ball, pass and shoot. STADIUMS New stadium models show the world's greatest arenas in stunning detail. From the billboards on the walls, to the way the kits and grandstands have been redesigned, our clubs are in a league of their own. VISUAL ANIMATIONS FIFA is the most visually stunning football game ever. Game engine has been upgraded to make every detail of the player and ball visible with stunning quality. FIFA FUT Champions FIFA FUT Champions 2.0 is the definitive version of the popular football/soccer simulation video
