[Rocket Builders] is a simulation game where you design, build and fly customized spacecrafts to become the first to reach the surface of the Moon, Mars, the asteroids or even get to the far reaches of our solar system. [Rocket Builders] makes the building and flying of spacecrafts an intuitive experience where you can concentrate only on flying and not worry about the details of flying, construction or even the orbital trajectory! [Rocket Builders] also features mission planning and custom cruise speed to make your life easier. All of these are achieved with a very unique modular and non-impulsive driving system and a unique real-time space and atmosphere simulation, based on an orbital engine with high time-wraps and accurate orbital dynamics calculations. [Rocket Builders] is powered by a unique and very customized integrated development environment called [DropSpace] - which will help the player to focus only on the game, and do the fun things while everything is being handled by the game engine! [Rocket Builders] is very easy to play and difficult to master - it's well suited for both casual players looking for a great time-killer experience or hardcore players looking for a challenge. [Rocket Builders] features: - A 3D realistically modeled world with smooth surfaces (planets, asteroids and planets) - Large repository of customizable parts and unique ship elements - Pause and freeze time at any time, including mid-flight - Solar System Visualization - A custom orbital engine with high time-wraps and accurate orbital dynamics calculations - A full scale physics engine with ship rotation and easy to use physics properties like collisions, discretization, damping and propulsion - All parts can be assembled to make rockets, spacecrafts and other interesting stuff - A very fine-grained scenery editor that let you build your own 3D worlds - Blowing up planets with asteroid fields and reusability: eject the chunks to build a new world - Mission planning using custom cruise speed and quick travel points - And many, many more! [Rocket Builders] focuses on an immersive experience where you can concentrate on flying the ship - no worrying about the details of flying, construction or even the orbital trajectory! You play as the Joint Task Force commander, tasked with overseeing the defence of an isolated base on the Pakistani side of Kashmir. You command a task force of modern aircraft from India, Pakistan, and other powerful nations: modern F-16s, F-15SIGMA, F-22 Raptor, F-35B Lightning IIs and E2s, F-16CM/CTOL, MiG-35s, Su-30MK2 and Su-30MKM and Su-33. Stick with our strategy guide to easily turn these assets into a formidable strike force that will take on all comers, from light to heavy aircraft: each one of these combatants has a unique playstyle and can be the right tool for any situation. Aircraft: For air combat you can choose from: - The Russian-made Su-30MK2 which is the heart and soul of the F-35 fighter force and can fire accurate long-range missiles at targets up to 250km away. - The F-35 Bovespa which is the most advanced jet in the air force, offering unparalleled agility and agility allowing it to evade or outmanoeuvre most other jets. - The original F-35 CTF was the first batch of CTF to be delivered to the Indian Air Force in 2015 and is the most modern of the F-35 fighters. It has a much higher radar signature, making it more vulnerable to enemy fighters, and is as its US namesake, the fastest Strike Fighter in the world. The Thunder Snow is a dedicated stealth jet that can undertake many different roles, from interceptor to anti-shipping, and whose radar signature also makes it much more difficult to locate and destroy. - The F-35 Lightning II, which is the aircraft of the Joint Strike Fighter (JSF) program, though it is also being offered to a few other nations. It is important to note that the aircraft is usually divided into two classes, depending on the role you choose to perform. The Fighter role is that of a dedicated fighter, meaning that you can only choose it as your main fighter; you cannot fly as a bomber or land on the ground as a tank. The Strike role, on the other hand, is more of a general purpose aircraft, so it can still perform many other duties in the air, but it should be taken on board only when the situation calls for increased cargo capacity or support fires. The last aircraft of the F-35B is

is Houston horse racing's only Triple Crown race wining organization. For five years, our unique race-and-training program helped five, two-year-olds eventually win the \$2.5 million Kentucky Derby. Today, We'll Ride!, as we call our racing program, boasts four world-class studs and a two-time North American Champion, And Our Next Step Is Winner With its epic accomplishments, winning the 2006 Eclipse Award for Outstanding Breeding at Hip No. 2, Silver Buckle's reigning Lone Star Millionaire, Jupiter, has never really been off the radar. Like Swiss watch perfection, these thoroughbreds have carried their duty and proven their worthiness. And Jupiter's reward is the most deeply desired prize of them all -- a chance at the ultimate challenge for which nobler thoroughbreds strive -- the Triple Crown of Thoroughbred Racing. She's a bay with a roused action and prancing movement. Envision a fluid movement, stunning head and a long, straight hindquarters with good action, hocks and conformation. Spectacular color, too. Intense eyes, appealing ears, and clean-cut head and nose. Spectacular, bigger than life, hot! When our current premium sire, Moidart Moon, was purchased for 25 cents at the 2001 Stalwick Bloodstock Sale, she stood in her pen, gawking, open-mouthed, not knowing what all that was about but certain she was worth more than that. She was fully grown, with a buyer, yes! "What's that 4?" his new owners asked in amazement. Three puts for \$1, and when added to the selling price, the breeze blew about \$1.60. Moidart Moon was very proper a type, a warmblood with a classic arched neck and true white fetlocks. As a gray-and-white entire mare, she predisposed her offspring from the moment of birth to be filled out into extravagant appearance. But when we pried her offspring for productive qualities, we knew we had something special. We had three score for one dollar, and three for one dollar since, well, all this fuss. Mate Perfection: Our first stakes winner, a chestnut son and his sire. He's currently with a stud in Europe, shadowing the horses themselves. He'll become a stallion himself, most likely in Italy, given the breeder's rather unconventional views on breeding. He's exhibited a qu
